PROFILE

Creative UI/UX Designer and IT undergraduate at UCSC (GPA 3.1/4.0) with proven skills in Figma prototyping, user-centred responsive front-end development. Delivered 5 portfolio projects spanning mobile app UI, e-commerce design, and full-stack platforms. Passionate about crafting intuitive, visually compelling digital experiences that solve real user problems.

PORTFOLIO PROJECTS

Skincare Product UI · Figma Design

Modern e-commerce UI with soothing palette, strong visual hierarchy, and a component library. High-fidelity Figma prototype designed for mobile and desktop layouts.

Creavint Ride — Travel App · Figma Design

Vehicle-sharing platform for foreign travellers — trust-building UI, clear information architecture, and a streamlined booking flow. Developed user personas and journey maps; iterated designs via usability feedback.

Photography Gallery Website · Front-End

Fully responsive gallery site built with HTML, CSS, and JavaScript. Applied CSS Grid/Flexbox layouts and smooth scroll animation for a polished storytelling experience.

Tech-Driven Interface · Front-End

Modern dark-themed tech interface with interactive UI components and full responsiveness across all screen sizes.

Digital Municipal Council System · UI Lead · Full Stack

Led UI/UX design for a civic web platform serving 500+ users — high-fidelity Figma wireframes across 8+ modules (shop registration, complaints). Built reusable Angular component library aligned to the design system.
